25X1A 25X1A	* Comment. For use and composition of tank shuttle trains operating for the Soviets, According to the present report, a total of 296 flatcars was assigned to tank shuttle trains. There was	
25X1	no charge in the compositions or locations of these shuttle trains. However, according to previous information, eight 50-ton flat-	
	cars were to be made available for Seviet tank shuttle trains in the Cottbus railroad district.  only lik flatears have been made available to the Seviets for the shipment of tanks.	25X
	As the present report lists every tank shuttle train	٦ .
25X1	the load capacity of its cars, and the place where it is stationed, it is believed to be fairly accurate.	_
